

Betreff: FW: One-time only showing of Rudolf Jaenisch's Keynote Talk from ISSCR 2012 on Sept. 12 with LIVE Q&A

On Wednesday (**12.09.2012**, 3pm) the keynote lecture "iPS technology and disease research" of Rudolf Jaenisch from the ISSCR Meeting 2012 will be re-broadcasted via a web-stream. Furthermore, the plenary talk of Austin Smith (the "inventor" of naive pluripotency) is available, too.

I would like to volunteer to set-up the IT equipment for a special "**Rebirth special lecture: Highlights from the ISSCR meeting**":

2:20 – 2:50 pm: Austin Smith: "The core of embryonic stem cells"

3:00 – 3:45 pm: Rudolf Jaenisch: "iPS technology and disease research" + live questions / answers

Location: Hans-Borst-Centre, seminar room, Building I11

With kind regards,

Tobias Cantz
